WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Four members: bottom, two sides at 8 deg, top; half-lapped.
Outer edge follows the inside of the hull; 45 wide all round.
One on the transom (inside face), one on each joint bulkhead.
Glue (thickened epoxy) and screw through the plywood from outside every 150; 5 x 30 stainless screws.
Joint frames: bolt holes at 75 and 250 each side, 28 up and 377 up; pins at 400 each side, 377 up.
Nut plates on the aft joint frame's aft face (see joint 4).
