WHERE IT GOES
This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Foam core 250 long x 190 wide x 316 high (15 L): six 50 layers plus one 16 layer; no glue. Same sewn sleeve as the benches.

Stands 40 forward of the transom, on the side stringer and the bench rail, inboard face 125 off the centreline: 250 clear between the two modules for the boarder's legs.

Strap 50 webbing: screwed to the transom ring frame's top member, over the module top, down its forward face and screwed to the side stringer. Port and starboard alike.
