

REV	DESCRIPTION	DATE	BY
P1	Making sketch for the prototype build plan	2026-10-03	AC
P2	LSK-DDR-003: wider; stern quarter modules added	2026-10-03	AC

WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Foam core: 50 layers stacked to 350, outboard edge bevelled 8 deg; 1,735 long aft, 847 long forward; 193 to 242 wide.
Cover: sewn sleeve, laced ends; same as LevelHull modules.
Rail 40 x 20 softwood glued and screwed to the floor along the module's inboard foot, 330 from the centreline.
Straps 50 webbing (three aft, two forward): screwed to the inwale's inner face, over the module, down to the rail.
Quarter module: core 205 x 222 x 330 (15 L), 40 from the transom, on the side stringer and rail; two straps from the floor at its inboard foot, over it, to the inwale.
