P1	Making sketch for the prototype build plan	2026-10-03	AC

WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

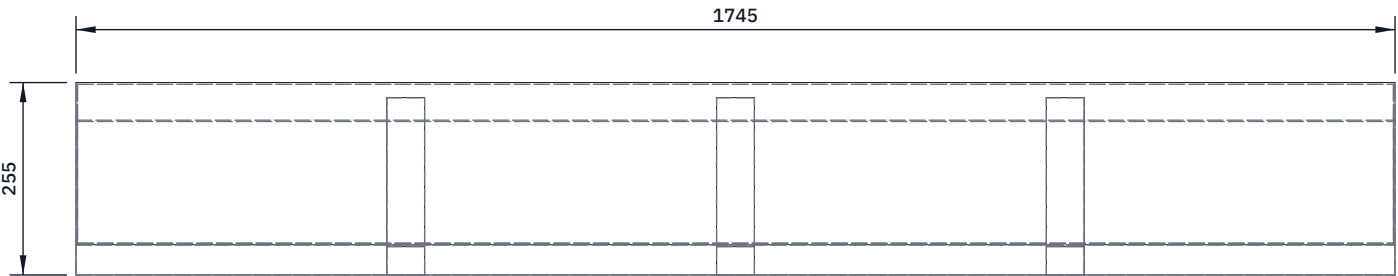

Foam core: 50 layers stacked to 350, outboard edge bevelled 8 deg; 1,735 long aft, 847 long forward; 160 to 210 wide.

Cover: sewn sleeve, laced ends; same as LevelHull modules.

Rail 40 x 20 hardwood glued and screwed to the floor along the module's inboard foot, 330 from the centreline.

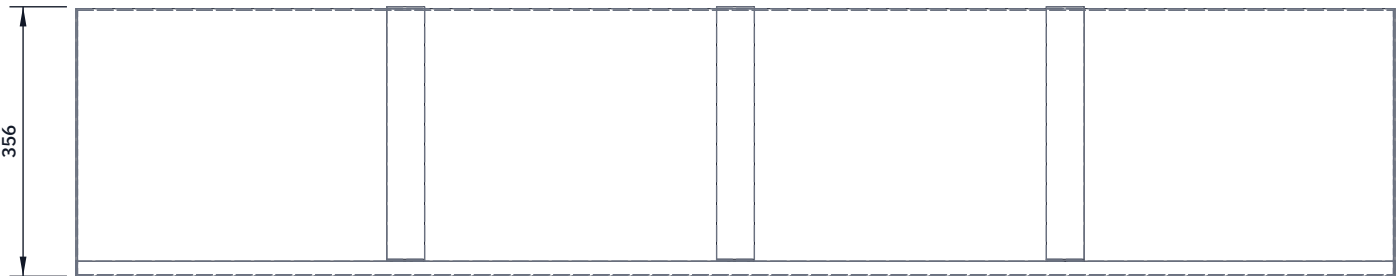

Straps 50 webbing (three aft, two forward): screwed to the inwale's inner face, over the module, down to the rail.

Module top touches the underside of the inwale.
