P1	Making sketch for the prototype build plan	2026-10-03	AC

WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Rail 40 x 60 x 640 on the transom's outer face, bottom edge
100 above the hull bottom, centred.

Backing block 20 x 60 x 640 on the inner face, same height,
between the ring frame's side members.

Four M8 x 90 stainless bolts through rail, transom and block
at 110 and 280 each side, 130 up; bed in sealant.

Hinge leaves screw to the rail top (60 wide).
