WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

450 long x 600 wide x 90 deep; rim 20 x 75 hardwood, glued and screwed at the corners.

Foam core 410 x 560 x 75 in the rim; 6 deck below, 9 deck on top; all glued with epoxy; non-slip coating on top.

Front edge sits 40 behind the hinge rail (the gap keeps fingers and feet clear as the step swings).

Two strap hinges on top across the gap; pad eyes on top near the aft corners; rung strap eyes on the aft face.
